

Alternative ID for Candidates Testing in the UK

If you are taking the test in the UK and cannot present one of the permitted forms of ID, there is a fall-back solution.

Please ask your school/college to attach your photograph to its headed paper and include the following text:

"This document is to confirm the identity of our student [insert your name], date of birth [insert your date of birth], whose signature appears below, endorsed with the official stamp of the school [that covers part of the photograph]."

Please note the following:

- The letter must be signed by a head teacher or a senior member of staff.
- You must also sign this document.
- It must bear the school stamp, which should cover part of your photograph.
- The photograph used must be clear and you must be easily identified from it.

Please refer to this sample letter:

Re: University Clinical Aptitude Test (UCAT) Identity Document

To whom it may concern:

This document is to confirm the identity of our student Harry Remus Potter (DOB 23 March 2002), whose signature and photograph appear below, endorsed with the official stamp of the school.

Albus Dumbledore
