

UCAT Preliminary Test Statistics 2020

- The following data is valid up to the **20 September 2020** when **19,461** candidates had taken the test.
- We are anticipating that a further **15,000** candidates will take the test; as a result the following scores should be treated with significant caution. Candidates should use these figures as a rough guide to judge their own performance as these numbers will change as the testing cycle progresses. As an example, the 2019 preliminary mean score was 2541 and the final mean score was 2483.
- Final mean scores and deciles will be published as soon after testing closes as we are able.

Mean Total Score

- The preliminary mean total score is **2578**.
- We will publish the means for individual subtests in the next few days.
