Total Cognitive Mean Scaled Score	2511	2483	2485	2540

The scaled score range for each cognitive subtest is 300 – 900.

Decile Rank

The following table gives the decile rank of candidates in each year. Each decile represents 10% of candidates based on their overall test performance. The 1st decile represents a score at the 10th percentile; the 2nd decile represents a score at the 20th percentile, and so on. Not all percentiles are observed due to the high frequency of some scores.
